

La Mercedes

Sandra Feldberg and Eduardo Barrios run a repair-business in Buenos Aires and offer on their company grounds the possibility to park your camper during any stay in another country. As Argentina permits a temporary importation of foreign vehicles up to 8 months, you can fly home and come back to continue travelling.

Sandra speaks English and also a little German.

The workshop of **La Mercedes**, can be found near La Plata on Ruta Provincial 36, next to a Petrobras gas station. Approximately one kilometre north of the intersection of Ruta 36 y Ruta 13

GPS-Point:
S 34° 57.605', W 58° 5.046'

The whole area (the gas station and the workshop) is owned by a man, who lives in a house next to both. There is a security service all night long and the guard makes his rounds on the whole area. There are also watchdogs around.

They charge around **US\$ 1,50 per day** – please contact them in a personal mail and tell them you are coming a few days before.

Transport from and to the airport can be organized!

They also offer **car insurance** for Argentina and the surrounding countries (Chile, Bolivia, Uruguay, Paraguay), which seems to be a cheap option, if you stay in the area! For a Mercedes Camper it is around US\$ 35,- per month in 2010.

Because it is a business, you are not allowed to sleep in your camper, but you can do this on the huge and secure Petrobras-area next to it. They run a nice little restaurant, offer WiFi-access and showers can be used for a small fee.

Contact: s.feldberg@hotmail.com (please in Spanish oder English)
Phone (Sandra, Mobile): 011-15-3-5450353

Of course they also repair your car, truck or camper, it does not have to be a Mercedes. They are cheap and work well.

Please forward this information to anybody, who might find it useful!
